## Visiting Fellowship Programme

---

### Call for Applications – 2025

### Deadline 20 January 2025

The Nordic Institutes of Advanced Study have formed the network [NordIAS](#) with the aim of increasing collaborations among the institutes and affiliated fellows and staff. The NordIAS visiting fellowship programme is intended to enhance the academic dialogue and network both for the fellows participating and for the institutes at large.

The NordIAS visiting fellowship programme is relevant for you if you see added academic value both for you as a fellow and for the receiving institute in doing a visiting fellowship for 1-3 weeks as part of your existing fellowship. Before you apply, you are encouraged to seek out potential collaborators and/or activities of relevance at the receiving institute.

#### **Eligibility**

All fellows at all the eight institutes are welcome to apply for a visiting fellowship at one of the other institutes. In order to apply, you must have an active fellowship at the home institute at the time of the desired visit.

#### **Period and duration of visit**

The visiting fellowship can be of 1 to 3 weeks. The timeframe for the visits will be coordinated with the hosting IAS and timeslots must be proposed in the application. The Institutes have marked in the list below which semesters they accept visits.

## **Travel and accommodation**

The fellow's home institute will cover travel costs and accommodation for the duration of the visit. It is the visiting fellow's responsibility to find adequate housing and make arrangements with their home institute for the reimbursement/funding of the costs. Length of visit and type of accommodation must, therefore, be cleared with your home institute.

## **The visiting fellowship includes**

The receiving institute will provide an office space for the duration of the visit and will include the visiting fellow in all relevant academic and social activities.

## **Deliverable and outcome**

It is expected that the visiting fellow will actively participate in the activities at the receiving institute during the fellowship.

After each visit, the visiting fellow must submit a short evaluation of the visit and the outcome of the visit to the home institute.

## **Assessment of applications**

Applications are assessed in two steps.

- 1) Following the application deadline on January 20, 2025, the home institute decides which applicants they will support on an outgoing visiting fellowship. These applications are sent to the receiving institute.
- 2) The receiving institute(s) will decide which applicants they will receive on a visiting fellowship (this will largely depend on the academic match, timeframe and of available space at the receiving institute).

## **Application process**

- **December 2024:** Internal call announced by each institution
- **January 20, 2025:** Deadline for applications (submitted to home institution)
- **January 27, 2025:** Deadline for home institute to forward selected applicants to receiving institutes
- **February 10, 2025:** Deadline for receiving institutes to start dialogue with potential home institutes and incoming visiting fellows
- **Timeframe for visits** – see the timeslots for possible visits on the list of Institutes.

**Note:** If one fellow has applied to more than one institute, and is accepted at more than one institute, it is up to individual negotiation between the fellow and the home institute to decide if more than one visit can be granted.
